

Portfolio Interview Instructions

I've attached the schedule for the Portfolio Interviews taking place in Weeks 9 to 15. Please check it closely to see when you are acting as a member of the panel and when you are an interviewee.

As an interviewee:

Select and bring a job posting (may be the same one you used for the Employment Assignment). You will be required to answer a series of behavioural interview questions. You are expected to address at least two skills in the job ad, using the STAR formula and show pieces of evidence of those skills from your portfolio. The behavioural questions and the STAR formula can be found on D2L or the course web page. Remember the course page is found on drjoe.ca or the direct link at <http://gaia.flemingc.on.ca/~jmior/F2014/CMD.html>.

As a panel member:

You are expected to bring with you, and to submit at the end of the hour, your list of 3 behavioural questions that you think are good ones.

Make sure you refer to the list of files under Weeks 9 – 15 for lots of additional information. If you have any questions, please send me an e-mail.

Presentation

I've attached the schedule for the Portfolio Interviews taking place in Weeks 9 to 15. Please check it closely to see when you are acting as a member of the panel and when you are an interviewee.

Additional information was covered in class and can be found on D21 or the course web page.
