

Quantum Leaps - Dr. J. Mior

Portfolio 4 - F2011

Student Name:

Student Number:

The Influence of Rome

In class we watched a video (from the History Channel: Rome Week) that portrayed the contributions that Rome made to the advancement of science. Clearly discuss what these contributions were and their importance. Your answer must include a discussion on the creation of the “free zone” and the various the engineering feats of the Romans.

You may use other sources beyond the video we viewed in class.
